AUTHORIZATION TO VIDEO TAPE, AUDIO TAPE, PHOTOGRAPH AND/OR OBSERVE

The University of Central Florida's Communication Disorders Program, in addition to providing services to the Central Florida community, functions as a training clinic for graduate students in the Communication Disorders Program. The Florida Alliance for Assistive Services and Technology (FAAST) also provides similar training and supervision in conjunction with the University Communication Disorders program. Because of this, you may encounter certain situations in the clinic that you might not be exposed to in another treatment setting.

In order for the student clinician to receive thorough supervision, it may be necessary for the clinician to tape (Audiotape and Videotape) the sessions. In addition, there is a one-way mirror in each therapy room, and an observation room adjoining. From time to time, the student clinician's session may be observed by the supervisor or by other student clinicians. At times, video and audio tape(s) may be used for educational purposes.

A fully qualified professional supervises each client's program at the Clinic. Graduate Students may be assigned to work with certain clients. A qualified faculty member, however, will be responsible for the professional services. This professional will supervise, counsel and direct the clinical activities.

In hereby authorize clinical personnel from the [] Communication Disorders Clinic and/or [] FAAST to video tape, audio tape, photograph, and/or observe clinical sessions for:
