Intensive Comprehensive Aphasia Program (ICAP)

The ICAP is an intensive 6-week program, Monday through Thursday, for 4 hours per day. The goal of the program is to increase communication skills. In total, participants will receive 96 hours of speech therapy, with 4 hours designated for evaluation before and after the session. Participants receive an individualized therapy program based on their assessment performance. Therapy will consist of individual and group sessions under the direction of Dr. Engelhoven and assisted by Master-level student clinicians. Therapeutic intervention is based on the latest evidence-based practice and will be complimented by assistive technologies and weekly community re-engagement activities.

Who Can Participate in the ICAP?

Participants must be adults with aphasia, at any level of impairment, that are medically stable as verified by their family physician. They must also be cognitively and physically able to endure the intensity of the program and must not demonstrate behavioral problems indicative of poor motivation or lack of cooperation. Finally, they must be a minimum of 6 months post onset of their neurologic injury. Participants are scheduled on a first-come-first-served basis **following** the initial evaluation and receipt of the deposit. Preferences for scheduling will be granted to those who have not previously been through the intensive program at Aphasia House.

What is the Cost?

The cost for ICAP at Aphasia House is \$7500. We do not bill insurance or Medicare. Once you are determined an appropriate candidate for ICAP, we require a \$500 deposit to hold a preferred spot. Then, a payment of \$2000 is due four weeks prior to treatment, \$2500 on the first day of treatment and \$2500 on the first day of the fourth week of treatment. Stroke survivors who need financial assistance may apply for a grant through the Scott Coopersmith Stroke Awareness Foundation. The grant application can be downloaded here: <https://strokeawarenessfoundation.org/resources/>

What's Included in the Program?

In addition to individualized treatment, participants are invited to attend Friday Only Club on Friday mornings for group therapy. Co-survivors/care partners are also invited to attend a support group on Wednesday mornings. Participants will also engage in a group activity with a snack between the second and third hours of therapy. Other programs offered during or following ICAP include:

- Friday Only Club: a therapeutic support group for persons with aphasia (free during ICAP; \$10/week after ICAP)
- Aphasia Family: a free community group focused on increasing wellness, learning, and service
- Aphasia Choir: a free community choir open to all persons with acquired neurological disorders
- Feeling Aphasia: a neuropsychological treatment group for persons with aphasia (additional cost associated with this service)

AUTHORIZATION TO VIDEO TAPE, AUDIO TAPE, PHOTOGRAPH AND/OR OBSERVE

The University of Central Florida's Communication Disorders Program, in addition to providing services to the Central Florida community, functions as a training clinic for graduate students in the Communication Disorders Program. The Florida Alliance for Assistive Services and Technology (FAAST) also provides similar training and supervision in conjunction with the University Communication Disorders program. In order for the student clinician to receive thorough supervision, it may be necessary for the clinician to tape (Audiotape and Videotape) the sessions. In addition, there is a one-way mirror in each therapy room, and an observation room adjoining. From time to time, the student clinician's session may be observed by the supervisor or by other student clinicians. At times, video and audio tape(s) may be used for educational purposes.

A fully qualified professional supervises each client's program at the Clinic. Graduate Students may be assigned to work with certain clients. A qualified faculty member, however, will be responsible for the professional services. This professional will supervise, counsel and direct the clinical activities.

I hereby authorize clinical personnel from the [] Communication Disorders Clinic and/or [] FAAST to video tape, audio tape, photograph, and/or observe clinical sessions for:
