Grant Proposals and Funding

External Funding (Funded)

SPEAK OUT! & LOUD Crowd Grant Program, 2021-2023

A grant program that provides funding to clinics to certify clinicians and students to provide the SPEAK OUT! & LOUD Crowd program to individuals with Parkinson's disease.

Role: Administrator

Amount: \$2000

Pabst Steinmetz Foundation Arts and Wellness Innovation Award, 2020-2022

(PI: Sybil St. Clair, Lauren Bislick, Megan Sherod)

Advocating for Aphasia: Using the Performing Arts to Create a Conscious Community brings together a multidisciplinary team and community partners to empower people with aphasia (PWA). Aphasia, which is characterized by a reduced ability to speak, understand, read and write, is not well understood by first responders. This initiative aims to develop self-advocacy for PWA through story sharing of previous experiences they had with first responders. These stories will be used to create an educational video to better educate first responders.

Role: Collaborative Investigator

Amount: \$25,000

Patient-Centered Outcomes Research Institute (PCORI), 2019-2021

(PI: Jackie Hinkley)

Building a Bigger BRIDGE: Research Incubator Network for PCOR in Communication Disabilities The goal of this project is to create a research incubator network. The network will have a hub and four regional centers around the United States. Each of these centers will train people who are interested in collaborative research that includes people with communication disabilities. The project's long-term goal is to double the number of collaborative research teams working on issues related to communication disabilities. The team also wants to create a network that will help support research teams that are doing this kind of work.

Role: Regional Coordinator

Amount: \$247,822
